## 11-Day Cuba AgriTour with Jane Eckert

January 14 - 24, 2017

Visit this country frozen in a bygone era, isolated for decades, with a deep-rooted culture developed without Western influence. Experience Cuba now before inevitable change will come with tourism and foreign investment!

### Featuring...

- **Old Havana** – the colorful, vibrant capital with quaint cobbled squares where vintage cars ply the streets past historic architectural gems
- **Finca Vigia** – Ernest Hemingway's home in Cuba, the "lookout house" where he fished, bred cats, and wrote several of his greatest works
- **Cienfuegos** – the Pearl of the South, this UNESCO World Heritage site glitters with elegance, enlightened French spirit and feisty Caribbean panache
- **Trinidad** – built on the back of the 19th-century sugar and slave trade, no expense was spared in fashioning the finest Spanish colonial mansions, plazas and churches, which still stand testament to the vainglory of this profiteering era
- **Vinales Valley** – outstanding karst landscape encircled by mountains dotted with spectacular dome-like limestone outcrops (mogotes); this fertile soil and conducive climate have provided for centuries of unchanged traditional farming – such as stock-raising, fodder and food crops, and tobacco

...as well as Botanical Gardens, tobacco growing/cigar making, artisan markets, nature preserves, a crocodile farm, sugar mills, "farm to table" paladares (innovative in-home restaurants), bars/tango houses/salsa dancing... experience it all -- plus an opportunity to interact with the Cuban people, delving into their daily lives, engaging them in conversation, and seeing Cuba through the eyes of the farmers, artisans, and entrepreneurs who will lead them into the future!

Let me know of your interest in joining me on this 12th Anniversary Eckert Agritour!
